[Keep California's Promise - How much will it cost for us to restore public higher education?](#)

To the SCFA membership:

I am pleased to inform you of the results of the SCFA election. The proposed amendments to our Bylaws have been approved and can be found on our website. We welcome Benjamin Carson, Ben Crow, Regina Langhout and Elizabeth Stephens who have now been elected as members of our Board, and thank you for your willingness to contribute your time and energy to the needs of our Association.

The news which we have received from our legislature during the past months is indeed disheartening and we will have our work cut out for us in the fall. We continue to see the \$32.00 tax as a possible solution to our economic woes. For those of you who would like to see the details of the \$32 calculation and how it would affect less and more affluent Californians, see <http://keepcaliforniaspromise.org/553/working-paper>

We again encourage you to invite other faculty members to participate in our discussion and work towards the rebuilding of our University system. The membership form is on our website. Simply print it out and mail it to the address listed on the form.

Have a nice summer.

Cordially,
Shelly Errington
for the Executive Board
